

## **List of Faculties offered by L&C Language and Culture Co.,Ltd.**

*By L&C Language and Culture Co.,Ltd*

*Dated: Sep 06, 2009*

*Website : - www.lcstudies.com Website : - www.lcstudies.ru E-mail : - lcstudies@lcstudies.com Tel/Fax : - 007-(4732)-781032, 928555*

### Faculties

Analytical and Medical Biochemistry and Microbiology  
Applied Biotechnology  
Analytical Chemistry  
Accounting  
Archaeology and Ancient History  
Applied informatics (in Geography  
Advertising and Design  
Administrative and Municipal Law  
Algebra and Topological Analysis Methods  
Automation of technological processes and production (by branches)  
Architecture  
Administrative and Municipal Law  
Automation in engineering processes and production  
Applied information science  
Applied information science in economics  
Applied mathematics and information science  
Automatization of Technological Processes  
Accounting, analyzing and audit  
Applied computer science in economy  
Biophysics and Biotechnology  
Biology and Ecology of Plants  
Baking and confectionary technology  
Building materials and products  
Bases and foundations  
Biochemistry  
Biology  
Biology with specialization in Science of Hunting  
Business accounting, analysis and audit  
Business Administration  
Botany  
Business informatics  
Civil Law  
Constitutional Law  
Criminal Law  
Criminal Process  
Consumers services  
Criminology  
Cultural Studies  
Corn technology and processing technology  
Computer Science and Computer Engineering  
Clinical psychology

Chemistry  
Communication nets and switching systems  
Digital Technology  
Design of architectural environment  
Ecology and Systematics of Invertebrates  
Ecology and Chemical Technology  
Economic Analysis and Audit  
Electronic and radio engineering, radio communication  
Economy  
Economics and Management Studies  
Economic Theory and International Economics  
Employment and Labour Law  
Experimental and Clinical Pharmacology  
Electronics  
Experimental Physics  
English Philology  
English for Arts Faculties  
English for Science Faculties  
English for International Relations Faculty  
Environmental protection and rational national resources usage  
Engineering of environmental protection  
Economics and management at enterprise  
Economic Theory  
Economy and management in civil engineering  
Ecology in civil engineering  
Economy and management of organization  
Exploration of underground water and engineering-geological survey  
Financial Studies  
Fish and fish products technology  
Forensic examination  
Foreign language  
Financial Law  
Foreign Literature  
French Philology  
Foods Production Machinery  
Food engineering of small enterprises  
Food production machinery and apparatuses  
Food biotechnology  
Finances and credit  
Fermentation productions and wine making technology  
Fine arts  
Finance and credit  
Genetics and Theory of Evolution  
General Economic Theory  
General Chemistry  
Geo-ecology and Environmental Studies  
General Geology and Geodynamics  
Geophysics  
Geology, natural resources exploration and development  
Geology and Paleontology

Geography and Landscaping  
Geo-Ecology  
Geometry and Functional Theory  
General and Social Psychology  
General Physics  
German Philology  
German for Other Faculties  
General Pedagogy, History of Pedagogy and Education  
Geodesy and photogrammetry  
Geography  
Human and Animal Physiology  
High-Polymeric Chemistry  
Human Resources  
Historical Geology and Paleontology  
Hydrology, Engineering and Geology  
History of the Middle Ages and Slavic Studies  
Humanities  
History and Theory of the Government  
Humanities and Arts  
History of Philosophy  
Highways and airdromes  
Hoisting machinery, construction and road machines and equipment  
Heat and gaz supply and ventilation  
History  
History of Journalism  
Health care  
Humanities  
Heat and gaz supply and ventilation  
Household management  
History with specialization in Foreign language  
History  
Hydrogeology and Engineering  
House building and municipal economy  
Information Systems  
Inorganic Chemistry  
Information Technology and Mathematical Methods for Economics  
International Economics and Import-Export Studies  
International Relations and Regional Studies  
Information systems in technology  
International economics  
International and European Law  
Internship courses  
Information science  
Information management  
Interpretation and science of interpretation (English, German, French)  
Journalism  
Judicial Studies and Legal Activities  
Linguistics and Stylistics  
Literature and Folklore  
Law

Land cadastre  
Land survey and organization of land management  
Literature  
Marketing  
Microbiology  
Mathematical Modeling , Numerical Methods and Program Complexes  
Meteorology  
Mineral Management Studies  
Mineralogy and Petrology  
Modern History  
Modern History of Russia and Historical Records  
Mathematical Analysis  
Mathematical Modeling  
Management and Pharmaceutics  
Management and informatics in industry systems  
Machinery and apparatuses of chemical and building materials enterprises  
Management in Social and Economic Systems?  
Mathematics  
Medical Physics  
Medical business  
Management  
Management of organization  
Metaphysics and Theory of Knowledge  
Monumental Decorative Art and Architectural  
Mathematical Physics  
Meat and meat foods technology  
Milk and dairy foods technology  
Mathematics and Mathematical Cybernetics  
Mechanics of Liquid, Gas and Plasma  
Mechanics of Deformable Solid-State  
Mathematical Analysis ,Differential Equations & Geometry and Topology  
Nuclear Physics  
Nanomaterials  
National economy  
Nature management  
Nurse business  
Natural Environment Management  
Organic Chemistry  
Operational Equation Studies and Functional Analysis  
Optics and Spectrography  
Organization of work with youth  
Oriental studies and African studies  
Plant Physiology and Biochemistry  
Physical Chemistry  
Programming and Information Technology  
Physical Geography and Landscaping  
Political History  
Preparatory Russian  
Partial Differential Equation Studies and Relativity Theory  
Pharmaceutical Chemistry and Technology

Pharmacy  
Pedagogic Studies  
Physics of Semiconductors and Microelectronics  
Public catering foods technology  
Plastic masses and elastomers processing  
Public catering service and tourism  
Pedagogy, History of Pedagogy and Education  
Pedagogy  
Philosophy, and exam in the chosen major  
Philosophy  
Philology  
Philology (Foreign language  
Physical Culture  
Philology. Arabian Language and Literature  
Philology. Korean language and Literature  
Physical culture for the people with health problems (adaptive physical culture)  
Pedagogy and psychology  
Pre-school pedagogy and psychology  
Pediatrics  
Regional Economics and Territorial Management  
Russian History  
Russian for International Students of Other Faculties  
Russian Language  
Russian Literature  
Radiophysics  
Romance Philology  
Radio communication, broadcasting and television  
Soil Studies and Agrochemistry  
Soil Geography  
Socio-economic and Regional Studies  
Sociology and Political Studies  
Sciences  
Stylistics and Editing  
Sla Solid-State Physics  
Saccharine substances technologies  
Social and cultural service and tourism  
Software Support of the Automated Systems», «Computer Networks and Telecommunications  
System Analysis, Information Management and Processing  
Structures in civil engineering;  
Structures in civil engineering  
Structural mechanics; mechanics of solids  
Software and administration of information systems  
Scientific discipline of documentation and administrative documentation  
Social work  
Sociology  
Special pre-school pedagogy and psychology  
Speech therapy  
Stomatology  
Standardization and certification  
TV and Radio Studies

Theory of Literature and Folklore  
Theoretical Physics  
Translation and Cross-Cultural Communication  
Theoretical and Computational Linguistics  
Technology  
Theory and methods of teaching offoreign languages and cultures (English, German, French)  
Tourism  
Theology  
Taxes and taxation  
Technology of catering products  
Thermal physics and molecular physics  
Theory of architecture and urban planning  
Theoretical principles of heat engineering  
Water supply and water disposal systems  
Wildlife management  
Welding equipment  
Zoology
